Dr. Vannevar Bush, Director,
Office of Scientific Research and
Development,
1530 P Street, N. W.
Washington, D. C.

Dear Dr. Bush:

Dr. Samuel A. Goudsmit of the Office of Scientific Research and Development, on duty with the Alsos Mission in the European Theater of Operations, was of great assistance to the group of army officers and special technical personnel engaged, under my direction, in investigations of enemy developments of the atomic bomb.

I thought you would like to know that his efforts are appreciated and I would be glad if this message could be conveyed to him through you.

Very truly yours,

L. R. GROVES,
Major General, USA.
